About Us

- We are an animal welfare organization
- Based in Jankipuram Extension, Lucknow
- Dedicated to caring for stray animals on the streets
- We provide food, treatment, love, and care to the animals in need.

Our Story

Our journey began with Tuk Tuk, a puppy with paralyzed hind legs. Through our care and his willpower, he learned to walk on his other two legs. Inspired by Tuk Tuk, we started feeding and treating dogs in our neighborhood, realizing that love multiplies when shared. The strays reciprocated our love tenfold. Tuk Tuk is no more with us. Tuk Tuk's passing has left a void, yet his spirit fuels our determination to support the helpless.

Our Vision

To create a world where strays don't sleep hungry. Inspiring every household to care for the strays around them.

Our Mission

Provide **consistent nourishment** and **medical aid** to stray animals, fostering a culture of **compassion**.

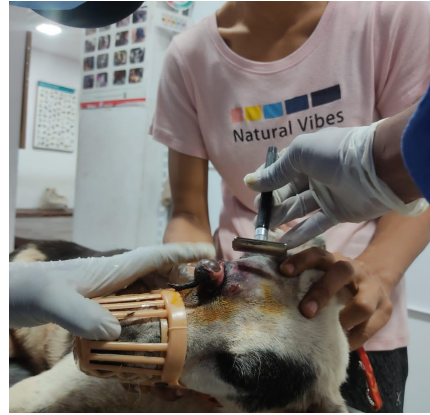

Drive **community involvement** by raising **awareness** about the **struggles faced** by stray animals and **encouraging proactive measures**.

Our Strategy

- **Feed & Care:** Regularly providing healthy diets to strays.
- **Rescue & Treatment:** Immediate help for strays in medical emergencies.
- **Shelter:** Providing a safe space for rescued dogs until they recover.
- **Awareness Drives:** Promote community engagement by increasing awareness about the challenges faced by strays.

Treatment

We provide treatment to dogs who suffer from any injury, disease, maggot wounds or if they are in some sort of pain. We don't treat them ourselves, we take them to the doctors who are connected with us.

Reflective Collars

All our dogs wear reflective collars. These collars shine in vehicle's light and hence prevents any accidents from happening especially during the night and in winters when fog increases.

Feeding Drives

We do regular feeding drives in Jankipuram Sector 6 area where we feed around 40+ dogs in the area. We feed healthy and nutritious food to the dogs.

Water Tubs

We have set up water tubs at multiple places in Jankipuram area so that all stray animals drink clean water and can quench their thirst.

Meetups and Awareness

We organize many drives for spreading awareness about our mission and vision. We also take active part in meetups held by any other ngos like HSI.

Vaccines and Deworming

All our dogs are vaccinated against various diseases like rabies. We also keep them deworming every once in while so that they stay fit and healthy

Milk Day Awareness

We conducted a drive to make people aware about the milk they drink, how we get it and how it affects the cows/buffaloes and even us. It was a very positive drive where we interacted with many people and got their support.

Foster Care

We foster many pets for people who go out on vacation or outside the city and don't have anyone else to take care of their pets.

Your Contribution Matters !!

Bank Name - **ICICI Bank**

Account name - **PYAAREPANJE ANIMAL WELFARE
FOUNDATION**
